

Building form - front side- edit screen

1. User would like to create form using categories/paragraphs/FRR admin as inserted in the form back side:
<http://pampuni.com/lac/sal/app/public/>

2. User would like to choose malfunction type from the following options:

Type	F-All is fine	S-Small malfunction	B-Big malfunction	N-Not available	C-Hasn't been checked
Score	100%	50%	0%	100%	100%

3. If user chooses options S or B “Finding” menu is enabled where user can choose options from “Finding” field on backside
4. Once user chose a specific finding , its matching “risk” and “repair” field will on an editable text field (so user can edit it) , leaving first line empty for user remarks
5. The “Risk+Repair” text field include text editor with the following options: Bullets, Numbering, Bold, Underline ,Font color, Font background color
6. If User checked the tick box , the paragraph will be marked Principal malfunction(see below)
7. User can upload photos , and deleted them
8. Once user finish fill up the form , he would like to see the total form score by clicking “Calculate” , the calculation works as follow: Category percentage (back side) X paragraph percentage (Back side) X Malfunction type score

Once user click on calculate:

9. “Principal malfunctions” , “Malfunction list” & “Summary and recommendations” will be created
10. Info from “Risk+Repair” field will appear on “Malfunction list” sorted by Category/ Paragraph name & number

If principal malfunctions check box been checked:

11. “Risk+repair” info will appear as well at principal malfunctions ,so a separate text field will be created for every “Risk+repair”.
12. The info of “Repair” (Only “Repair”) will appear as well at “Summary and recommendations”
13. User can change the order of text fields in “Principal malfunction” section
14. Text editor as indicated on #5 will appear in “Principal malfunctions” , “Malfunction list” & “Summary and recommendations” and user will be able to edit info
15. Data entered will auto saved similar to google docs

Differences table

Type	F-All is fine	S-Small malfunction	B-Big malfunction	N-Not available	C-Hasn't been checked	Remarks
Score	100%	50%	0%	100%	100%	
List		X	X			Sort by category and paragraph name&number
Principal		X(If checked)	X(If checked)			Each FRR on separate text field, bulleted with X
Summary		X(If checked)	X(If checked)			Add only "repair"
